

Material Safety Data Sheet

Ultimate Blonde Cream Blonde

1. Identification of product and of the company

Name: Ultimate Blonde Cream Blonde

Company: Keune Haircosmetics B.V.
Koningsweg 15
3762 EA Soest
Nederland
Tel : +31-(0)35-6016161
Fax : +31-(0)35-6026024
E-mail: info@keune.com

2. Hazards identification of the product

Labels:

Danger

Hazard Statements:

H272: May intensify fire; oxidiser
H302: Harmful if swallowed
H319: Causes serious eye irritation
H335: May cause respiratory irritation;
H315: Causes skin irritation.
H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H317: May cause an allergic skin reaction.

Precautionary Statements:

General:

P101 If medical advice is needed, have product container or label at hand.
P102 Keep out of reach of children.

Prevention:

P210 Keep away from heat/sparks/open flames/hot surfaces. — No smoking.
P220 Keep/Store away from clothing/.../combustible materials.
P221 Take any precaution to avoid mixing with combustibles...
P261 Avoid breathing dust.
P270 Do not eat, drink or smoke when using this product.
P280 Wear protective gloves/protective clothing/eye protection/face protection.

3. Composition/information on ingredients

Potassium persulfate (25-50%), Ammonium persulfate (10-25%), Sodium Metasilicate (10-25%), Mineral oil (10-25%), Anti-caking agent (1-5%), Perfume (0.1–1%).

4. First aid measures

4.1 General information

If complaints persist consult a physician.

4.2 After inhalation

Remove to fresh air immediately. If irritation persists consult a physician.

4.3 After skin contact

Rinse immediately with plenty of water. If irritation persists consult a physician.

4.4 After eye contact

Rinse immediately with plenty of water. Remove contact lenses if used. Consult a physician immediately.

4.5 After ingestion

Immediately rinse mouth with plenty of water without swallowing. Consult a physician immediately.

Version : 1.0 of 10-20
Revision date : 28 October 2020
Print date : 22 March 2021

Material Safety Data Sheet

Ultimate Blonde Cream Blonde

5. Fire-fighting measures

Fire extinguishing agents	: Water, water mist, CO ₂ , foam. Water or water mist has to be used until complete extinguishing.
Specific danger	: In case of big fires the product can make toxic and corrosive gases/vapours of ammonia, sulphur dioxide (SO ₂) and sulphur trioxide (SO ₃).
Fire fighting equipment	: In case of big fires, wear breathing apparatus and complete protective clothing.

6. Accidental release measures

Personal protection	: Wear Protective clothing.
Environmental precautions	: Provide adequate ventilation to avoid production of irritating dust concentrations. Avoid penetration of the product into the soil/earth.
Measures of cleaning up spill	: Maintain good manufacturer hygiene. Avoid contact with skin, eyes and clothes. In case of contact, wash immediately with water. Clean any spillage and pick up mechanically; dispose of in accordance with local and national regulations.

7. Handling and storage

Handling	: Avoid localized friction and overheating into the product. Provide adequate ventilation in working areas. Avoid the formation of electro-static charges.
Storage	: Store in a cool (below 30°C) and dry place. Avoid contamination and avoid the presence of reducing agents like lotions and permanent waves. Discard any unused mixture with developer or bleaching lotions, since the container may break. AVOID humid organic materials such as paper towel, wood, clothes, etc..., which could induce spontaneous combustion. Protect from heat and sunlight; store in places far from rain and humidity; never store outdoor.
Specific use	: Only professional use.

8. Exposure controls / personal protection

Exposition Limit Value:	
Potassium Persulfate	TLV-TWA 0,10 mg/m ³
Sodium metasilicate	TLV-TWA 10 mg/m ³

Wear suitable gloves. Follow included instructions and warnings.
Keep away from food, drink and animal feeding stuff.

9. Physical and chemical properties

Aspect	Value
Appearance	: White powder
Odour	: Characteristic
pH (5%)	: 10.10 – 10.70
Inflammability point	: >65°C
Inflammability	: >65°C
Decomposition temperature	: >65°C
Explosive property	: n.d.
Oxidizing property	: yes

Material Safety Data Sheet

Ultimate Blonde Cream Blonde

10. Stability and reactivity

The product does not undergo decomposition if handled in accordance with regulations. The product is stable in security conditions, up to 65°C; above this temperature it slowly starts to decompose, releasing small quantities of oxygen and ammonia. At approximately 150°C decomposition becomes fast and self-accelerating, and generates oxygen which can give rise to relevant fires.

Humidity is a very important factor, because the product moisture – when not kept under control and not stable – can considerably lower the decomposition temperature.

Conditions to avoid : Avoid **heat, moisture** and reducing agents such as waving lotions. Avoid impacts. Do not subject to friction. May build electrostatic charge.

Incompatibilities : Acids, alkali, metals, burning and combustible materials. Do not use metallic bowls or stirrers.

Hazardous decomposition: corrosive gases/vapours; toxic gases/vapours of sulphur oxides (SO_x), ammonia, nitrogen oxides (NO_x) and ozone.

11. Toxicological information

Not dangerous. Safety judgement according to EC-regulations.

12. Ecological information

Always follow good hygienic work practices. Avoid product dispersion in the environment. German classification of risk for waters: WGK 1 - slightly dangerous.

13. Disposal considerations

Absorb and remove according to local legislation.
